

Family Reading Time

During the coming weeks we have a wonderful opportunity to create some valuable, quality family time with reading for pleasure at the heart of it.

Reading for everyone

This is a lovely opportunity to spend quality time as a family. Together in one room each person can read to themselves independently for 30 minutes. Whether a book, comic, magazine, newspaper, it allows dedicated time for each family member to read for pleasure whilst enjoying each other's company.

Sharing a book

Sharing and enjoying a book together could be part of a bedtime routine each day with your family. You could take it in turns to read, talk about the story, and how the characters are feeling, predict what might happen next.
